Garden Club Hosts Pilgrimage Here Mar. 15

Several hundred visitors are expected Tuesday, March 15, when the Bay-Waveland Garden Club hosts the Gulf Coast Spring Pilgrimage.

An interesting day has been planned for visitors as well as for local pilgrims, with many new locations of interest on the itinerary.

Mrs. E. M. Brignac will open the day by graciously serving coffee and miniature donuts to the pilgrims. This will be a stimulus to start them happily on the trek of local touring.

Leaving the Brignac home, the tour will go south on the beach to Nicholson Ave., where it will be directed through Hoffman Lane. This beautiful tree shaded avenue, and the side lanes, have some of the loveliest homes and gardens on this side of the Gulf Coast, and presents a restful and relaxing atmosphere to urban dwellers, who will undoubtedly be charmed with the serenity of the locale.

Continuing along Nicholson Avenue the travelers will go to "Oaklands," the home of Mr. and Mrs. Al Voight. As president of the Bay-Waveland Club, Mrs. Voight will receive her guests with Mr. Voight showing his hundreds of rare and fine camellias and other flowering shrubs on the extensive grounds of the estate.

Luncheon will be served at 2:30 p. m. at the Bay-Waveland Yacht Club. Mrs. Alice Buckley, chairman of the luncheon, an experienced and capable worker in the club, as well as in many other civic organizations is sure to offer a real food fest, which will vie with the gardens and flowers in satisfying both as well as spiritual satisfaction of the day. The only charge attached to the tour is for this luncheon, priced at \$1.50 per person. Reservations should be made in advance by calling Mrs. Frank Kiefer, Pilgrimage Chairman, 419, or Mrs. Al Voight, Club president, 318.

Pilgrims will be greeted at the Yacht Club by Mrs. Joseph R. Scharff, a past president of the Garden Club and current president of the Yacht Club Ladies Auxiliary. Dining room accommodations and luncheon service will be under her jurisdiction, with a host of charming members of the clubs to assist in serving. Leaving the Yacht Club the tour will travel along Felicly St. to (Continued on Page 5)

Beautiful O. J. Key Home on deMontluzin Avenue, which will be visited during the pilgrimage.

Supervisors To Seek Raise In Salary

The general feeling among the supervisors is that they are not getting their money's worth in the present salary schedule.

Just a few years back, supervisors were looked upon as "men of straw" and their pay was accordingly low for the work they were doing.

Under the 1950 bill, brackets ranging from \$2,000 to \$3,000 were set up for supervisors in Hinds, Harrison and Lauderdale counties.

The bill now being considered would create a top category of \$4,000 for Hinds county, Harrison and Lauderdale would be raised from \$3,000 to \$3,500 and made a separate category.

The counties in the \$2,000 category (Adams, Bolivar, Coahoma, Forrest, Jones, LeFlore, Sunflower, Warren and Washington) would be upped to \$2,500.

Counties in the \$3,000 bracket (Clarke, Copiah, Hancock, Lowndes, Madison, Marion and Wayne) would be upped to \$3,500.

And all the remaining counties would be raised from \$2,400 to \$3,000.

To support their salary increase, the supervisors are prepared to show their past have become almost full-time jobs. Many supervisors cruise their roads daily and act as foremen for their working crews.

While they are required to hold a board meeting only once a month, practically every board meets more often and many are on a one-a-week schedule.

In Mississippi, the county supervisors form the strongest single political bloc and usually their weight is heavily felt in the legislature. But this time, the supervisors aren't going to take any chances.

Lee W. White, of Poplarville, has been elected director of the Mississippi Economic Council for a three-year period beginning May 1st, according to an announcement by Fulton Grubbs of Philadelphia, chairman of the MEC elections committee.

Mr. White, who is president of Lee W. White Distributor, was named in balloting by the Council's membership in Area 20, composed of the counties of Hancock, Harrison, Pearl River and Stone. He succeeds Robt. L. Hamilton of Bay St. Louis.

The new director is a native of Poplarville. He attended Pearl River County Agricultural High School, and received his degree in Mechanical Engineering from Georgia Tech. Before entering his own business six years ago, Mr. White was affiliated with the J. B. White Motor Company.

He is a Methodist and Sunday School Superintendent, a past president of his Rotary Club, chairman of his school board, and a director in the Bank of Commerce. He is married to the former Mary Sue Calhoun and has two children.

Wise of Hazlehurst, who takes over the presidency of the MEC on May 1st, said, "We solicit for him the support of not only MEC members but of all citizens interested in the Council's program during the years ahead."

He said the new director is expected to attend a meeting of the board in Jackson on April 15, on the eve of the Council's 8th annual meeting.

Other elected directors from this area are: William C. Carter of Gulfport, and Hal Fowlkes of Wiggins.

TELEPHONE COMPANY OWNERS NUMBER 1 1/2 MILLION

The telephone business in America is owned by more people than any other company. It was pointed out by Frederick R. Kappel, President of American Telephone and Telegraph Company.

There are now 1,500,000 share owners which is nearly 2 1/2 times greater than share owners of any other American business.

During 1956, the number of outstanding shares averaged 57,432,000. This means the average stock holder owns about 28 shares of A. T. & T. There was an increase during last year of 6,717,000 shares.

The earnings for the Bell system total capital were 8.8% for 1956, the same as 1955.

Last year was a record year of financing and construction by the Bell Telephone Company throughout the U. S. Mr. Kappel pointed out.

A record amount of \$2.2 billion was spent for construction in 1956. However, we will have to spend even more to meet the demands of telephone users. We plan to spend \$2.5 billion in 1957 which is the largest construction program ever undertaken by any business firm.

The Bell System needs new capital from investors at an average rate of more than \$125 million a month," Mr. Kappel concluded.

STATE LIBRARY GETS \$400,000 FROM U. S.

Federal aid funds totalling \$400,000 have just been received by the State Library Commission to be applied to the strengthening of the operations of the department. This is the first allotment to Mississippi from a permissive \$7,500,000 federal aid for rural libraries act of the last Congress.

All states drew an equal amount from the initial appropriation of \$2,050,000. The initial \$400,000 will be spent for new equipment, additional personnel and so on. Specifically it will be spent to augment book collections in counties where they are inadequate.

The days are cold now, but don't forget spring, warmer days and gardening time is fast approaching. As you plan your flower beds, keep in mind the color scheme of your home. Choose flowers that will blend with or accent each room when they're cut for arrangements. Remember to use tallest plants in the rear of beds, lower plants to the front.

In contrast with many larger seaports which continually operate at a deficit, the port of Gulfport is a sound, business-like operation which annually shows a handsome profit and promise of becoming one of the South's leading terminals. The port of Gulfport has announced a 30 per cent increase in shipping tonnage during the first ten months of 1956, as compared to the entire twelve month total for 1955.

Fishing is picking up rapidly. The water up Jordan River is clear and some fish are being caught. Pearl River is clearing fast and some green trout and perch were caught over the week end.

Speckles are being caught out at the keys.

Speckles are running along the R. R. and Highway bridges with some nice ones being caught on plugs and with bait.

Ray Kidd and Gus Aime caught 31 speckles on the R. R. bridge Monday. Ray said it shouldn't be long now before shrimp will be coming in. Some of the specks he cleaned had shrimp in them. We'll all be glad to welcome some live bait.

Bill Jacks, who was recently discharged from the Army will go college in Tennessee soon. Billy said his favorite sport is skiing and he doesn't mean water skiing. He was really proficient at it we are told.

Ed Elliott of Lake Charles, La. was over Sunday and enjoyed a day's fishing. Ed is an ardent fisherman and is good at fly rod fishing and casting. He plans to come back soon and really do some fishing, he promised. By the way he is my nephew!

SOUTHERN BELL RECEIVES RED CROSS AWARD

An American Red Cross award for "Devoted Support and Humanitarian Work" has been given Southern Bell Telephone Company, it was announced today by C. D. Dabney, Southern Bell manager. The Red Cross commended the company particularly for its participation in First Aid and Training.

"We consider Red Cross first aid instruction to be of immeasurable value to our people in their jobs," said Mr. Dabney. "First of all, it helps to teach them safety. And, importantly, it trains them how to act in emergency situations." Mississippians hold 841 of the 10,053 company total.

"First Aid Training is given Southern Bell employees mainly as an accident prevention measure," said Henry C. Turner, vice president and general manager, who is also Mississippi's 1937 National Vice Chairman of the Red Cross. However, the entire community benefits from the program. Employees skilled in first aid use their training in accidents or disasters and often serve as first aid instructors for Parent-Teacher, Boy Scout or other groups.

He said that several Southern Bell employees have received National recognition for life saving and other heroic actions during which first aid training was applied.

Only recently, a Greenwood line foreman was credited with saving the life of a year-old girl at Winona. The foreman, Shurley Dillard, unblocked the throat of the choking girl and administered artificial respiration until she began breathing again.

Politics is in the air—with announcements being made there should be some real competition for the aspirants.

Joe Como who loves the races says it easier to win at golf where the going is much more profitable.

Givens Fishing Camp at Pearl River is again hitting its stride. Many fishermen from the Louisiana side of the river are frequent customers and praise the fishing in that section.

Don't see much of our old friend, Watson Johns, wonder if he is still pulling them in?

Bob Genin is back in the hospital, but is doing O. K. according to latest reports.

If you would like to have your name in this column kindly send in your fishing items to Kantcha Ketchum or phone the Eagle 265. Thanks.
